## **My Personal Story – by Carol Armstrong**

I have struggled with weight loss and yo-yo dieting for years and had almost given up hope of ever being slim again.

I was invited to attend the launch of a new slimming product and went along to check it out. I was more than a little skeptical.

I listened to the science, the personal stories and tried the product for myself. Right there in the function room while I listened to the presentation.

It's that user friendly . . . and it **starts working within 45 minutes** and after you remove it, **it keeps on working for the next 3 days!**

**To my great surprise . . . it worked!**

I measured **3.75 cm or 1.5 inches** slimmer around my abdomen  
by the end of that meeting.

I decided it was worth trying a few more treatments  
to see if it would really deliver on its promises

I used 2 more and guess what?  
It did . . . It Works!!!

After just 4 weeks I had **shrunk my tummy by 1/3<sup>rd</sup> its size**

and **after just 9 weeks it is half its original size!**

just by choosing the right foods and amounts to eat . . . no strict diets!

am I excited and motivated? . . . you betcha!

and I have more energy as I detox and burn fat!

***my abdomen is half the size it was in just 10 weeks !***

Now for the **first time in over 15 years** I found I could tuck

my t-shirt in to my waist band and still look good

I have always worn it out over my skirt or pants

to hide my tummy and hips. Not anymore! WOW!!!

Most people lose inches after their very first application  
some need to use a few wraps to get similar results

## **So how does It Work ?**

The site specific cloth wrap, coated with natural herbal gel  
is placed on your target area and held in place with plastic wrap  
or by your stretch bike pants or ace bandages etc.

**Body Builders use The Ultimate Body Applicator to define muscles and “get cut”**

**The ingredients in the Ultimate Body Wrap and Defining Body Gel work to**

**Detox**

**Tone & firm**

**Decrease inflammation**

**Break up & shrink fat cells - Lipolysis**

Our liver stores toxins in our fat cells to stop them running riot in our body  
more toxins create bigger fat cells, congestion and cellulite may form

When we lose weight or burn fat, toxins are released into the body, so we need to detox

The natural herbal ingredients in the Defining Gel and Ultimate Body Applicator penetrate deep in to the tissues to break up fat cells and draw out toxins which are then burnt as energy and excreted through the elimination organs of the body

## **How are the wraps applied?**

After taking measurements at three separate points around the tummy, an applicator is placed over the target area and covered with saran/plastic wrap.

You can rest or move but do not raise a sweat as it will interfere with the product absorption.

Remove after 45 minutes to an hour and re-measure

Make sure you drink water before, after and during the wrap.

It is recommended you apply a wrap every 4 days until you reach your goal  
Use the Defining Gel in between your wraps to firm and tone and accelerate your progress

**Then watch those excess inches disappear!**
